GRID COMMUNITY

VOYAGE

A 36-HOUR NATIONAL HACKATHON

SAIL BEYOND LIMITS.
BUILD BEYOND HORIZONS.

01

Introduction

Voyage – Beyond the Horizon is a premier 36-hour innovation challenge that brings together students, developers, designers, and innovators to solve real-world problems through technology. Over **36 hours** of continuous brainstorming, collaboration, and technical creativity, participants will transform ideas into impactful solutions while pushing the boundaries of innovation.

Whether you're passionate about AI, Blockchain, FinTech, Healthcare, or Open Innovation, Voyage provides the perfect environment to learn, experiment, and grow. Participants will collaborate with like-minded innovators, receive mentorship from industry experts, tackle exciting problem statements, and gain hands-on experience in building solutions under pressure. This proposal outlines the event's dates, goals, format, logistics, and expected outcomes.

Our Sponsors

Algorand

Leading Layer-1 Blockchain for the Future of Web3

Algorand is a high-performance Layer-1 blockchain platform designed for speed, security, and scalability. It enables developers to build decentralized applications, digital assets, and enterprise-grade blockchain solutions with near-instant finality and low transaction costs. Its energy-efficient Pure Proof-of-Stake consensus makes it a sustainable choice for the next generation of Web3 innovation

OSEN

Empowering Hackathons & Developer Communities Across India

OSEN is a technology-driven organization that supports hackathons, workshops, and developer communities by providing sponsorships, mentorship, speakers, swags, and community growth opportunities. It collaborates with colleges, student communities, and ecosystem partners to help aspiring builders transform innovative ideas into impactful projects.

S

Mewayz Global Corporation

AI-Powered Business Operating Platform for the Next Generation of Startups

Mewayz Global Corporation, a part of Orcrys Technologies, is an AI-powered Business Operating Platform helping startups, creators, and enterprises scale through intelligent automation. With engineering and AI product teams in Kolkata, Mewayz develops advanced AI orchestration, Web3 solutions, CRM systems, website builders, payment management, and marketing tools within a unified platform. The company also collaborates with leading academic institutions to foster innovation, entrepreneurship, and startup development, empowering the next generation of builders.

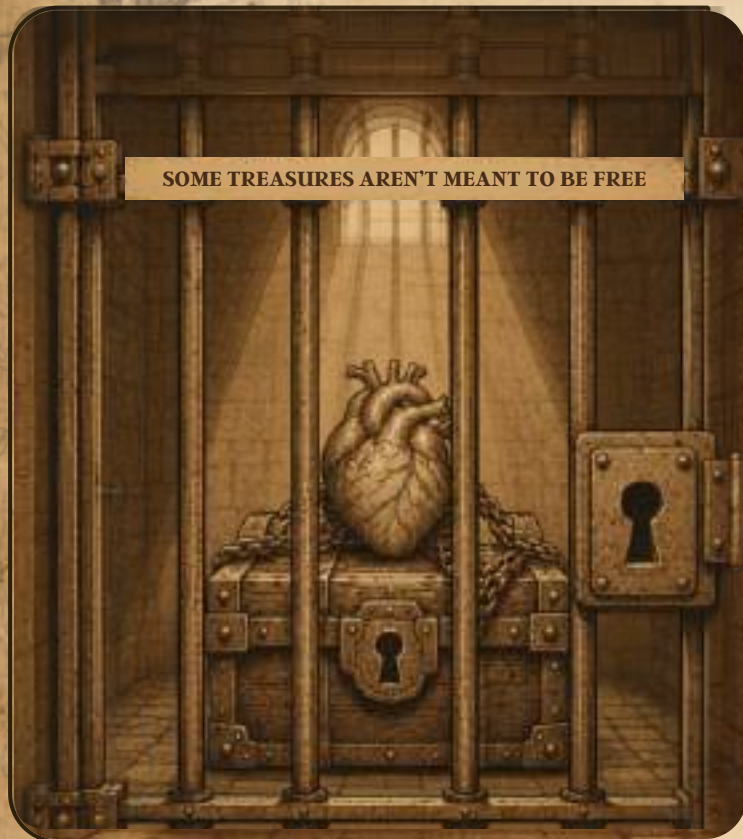

The 04 Voyage Arena

Devil's Triangle

Harness the power of AI
and Machine Learning to
conquer the unknown.

Fountain of Youth

Leverage technology to
build smarter, more
accessible Healthcare
solutions.

Davy Jones' Vault

Build innovative solutions to secure the digital world against evolving cyber threats.

Shipwreck Cove

Explore limitless possibilities and bring bold ideas to life across any domain.

Dead Men's Ledger

Redefine the world of Financial Technology through secure, scalable innovation.

Tortuga Market

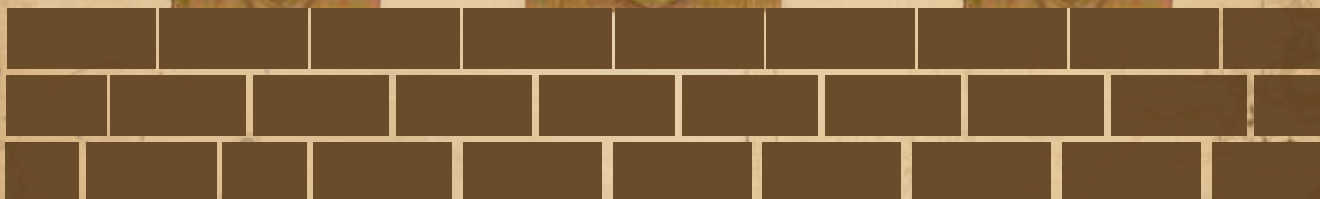

Navigate the future with Blockchain and decentralized technologies.

About us

GRID Community is a student-led community of more than 2000 members dedicated to empowering students through collaboration, hands-on learning, and real-world opportunities. Our mission is to bridge the gap between academia and industry by organizing hackathons, workshops, bootcamps, webinars, networking events, and technical initiatives that inspire innovation, foster practical skills, and prepare students for future careers.

In a short span, GRID Community has grown into a thriving ecosystem of passionate learners and innovators. With 2,000+ community members, 800+ registrations across online events from colleges throughout India, and expert-led sessions spanning AI/ML, Blockchain, Web Development, Cybersecurity, and emerging technologies, GRID continues to empower students through meaningful learning, collaboration, and innovation.
